Getting Started

Preheat oven to 285 °F. Test temperature with oven thermometer for perfectly cured clay. Condition all clay by kneading until it's soft and smooth, about 2 minutes. Many modeling clays contain ingredients that may stain or damage finished surfaces. Do not place unbaked clay on furniture, flooring, carpeting or fabric. Protect finished surfaces by working on a Sculpey Clay Mat, glass or metal surfaces or disposable foil or wax wrap.

1. Roll 1 oz. of Aqua into a log. Place the log on scrap paper so it won't stick to your work surface. Gently flatten the log with your fingers. Gently roll over the log with the roller until it is about 8" long. The best way to do this is to roll the clay from the middle to one end and then from the middle to the other end. Lift and flip the clay over, then roll again as needed.

2. Make two teardrop shapes. Then push the teardrops together to make a heart. Place these as desired on your bracelet band.

3. Push a dent in the middle of each heart with the ball ended tool. Fill each dent with a tiny ball of clay in another color. Push a hole in the middle of each dot with the blunt pointed tool.

4. Wrap the band around the empty can. Trim as necessary. Bake on the can. Smooth the seam with your fingers. Bake according to manufacturer's instructions.

Flower Bracelet

SUPPLIES:

Sculpey® Superflex Bake & Bend™ in the following colors: Yellow, Blue, Red, and Orange

Scrap paper

1. Roll 1 oz. of Yellow into a log. Place the log on scrap paper so it won't stick to your work surface. Gently flatten the log with your fingers. Gently roll over the log with the roller until it is about 8" long. The best way to do this is to roll the clay from the middle to one end and then from the middle to the other end. Lift and flip the clay over, then roll again as needed.

2. Make flower centers from Orange balls. Place these as desired on your bracelet band.

3. Make flower petals, six for each flower center, from Red and Blue balls. Place the petals around the centers. Push gently on the inside of the petals with the ball ended tool.

4. Wrap the band around the empty can. Trim as necessary. Smooth the seam with your fingers. Bake according to manufacturer's instructions.
